

Dear Friends –

From the moment Davy Crockett was released my life changed in ways I could never have imagined and I can honestly tell you that I have never once taken the experience for granted. For the better part of 55 years I have been on the receiving end of the experience of a lifetime and I am grateful for your continued appreciation and enjoyment of the films and support of our family projects, especially our efforts on the wine front.

Many of you have sent requests for autographs over the years and I have always done my very best to sign and return them in a timely fashion. At this point in time however, I am working on a bit of a backlog and it has me thinking that the time may have come for me to stop accepting autograph requests. At age 84 the wielding of the pen does not come as easily as it once did and spending as much time as possible with Marcella and the kids is a priority.

You have always been so supportive and I hope that I can count on your understanding as I make this difficult decision.

With great appreciation,

Fess Parker
